AI & Blockchain Fintech Confex

27th - 28th September 2018

• Radisson Hotel JFK Airport -135-30, 140th Street, Jamaica, New York 11436

Synopsis:

Artificial Intelligence and Blockchain are rapidly developing technologies which will play a vital role in the future of almost every industry; the financial industry is no exception. Finance is the core of every country's economy, and it's important to not only understand how artificial intelligence & Blockchain will impact the industry but also understand the risks associated with it.

While the financial world is eager to figure out ways to use AI's increasing abilities, they also want to know how Blockchain technology can change many aspects of the finance industry, as many companies have yet to realize its true potential. From process or workflow automation to optimization and lucid visualization techniques using advanced data science tools, major pain areas across industries are being addressed.

Undoubtedly, the Fintech ecosystem and multitude of stakeholders investing in this sector are eager to be a part of this transformation. We have designed this conference with a view to solve your doubts and get the real time experiences from the industry experts and discuss the challenges through use cases.

Thank you for your contribution

AI & Blockchain Fintech Confex 2018 got off to an enthusiastic start on Thursday and continued for the day 2.

In more than 25 presentations, the professionals explored impact of AI and machine learning, regulations and compliance, chatbots, cybersecurity. From AI, IoT and emerging platforms helped in identifying the advanced levels would have benefitted the professionals.
