NIGHTSTER™

INSTRUMENT OF EXPRESSION

The next chapter of the Sportster™ legacy starts now.

An instrument of self-expression through a howling machine. A rumbling canvas for those chasing a feeling. Nightster™ is the ultimate tool for riders who seek to push through barriers and experience a machine that reminds us that we are alive.

FORM

Shaped by 65 years of Sportster™ lineage, the Nightster™ features a classic Sportster™ silhouette, solo seat, chopped fenders and exposed dual rear shocks.

ANALOG SPEEDOMETER

Round 4.0-inch-diameter analog speedometer with an inset multifunction LCD display.

EXPOSED DUAL REAR SHOCKS

The exposed dual rear shocks are a deliberate styling element, intended to reference the previous Sportster™ chassis and to provide a critical style line at the rear of the motorcycle.

REVOLUTION™ MAX 975T ENGINE

Nightster™ is powered by the Revolution™ Max 975T engine, a liquid-cooled V-Twin tuned to make tremendous torque at low RPM.

FRAME

Instead of a traditional hoop-style frame, Nightster™ uses the powertrain as a stressed member, significantly reducing the motorcycle's weight and resulting in a very stiff chassis.

FUNCTION

The Nightster™ combines a lightweight chassis with the power of the Revolution™ Max 975T engine, delivering strong mid-range torque in a light and nimble package.
