LIGHTYEAR

Automation and Approval Management Application

What is it?

Lightyear provides 100% accurate line-item data extraction in real-time from bills, a robust approvals workflow, inventory sync and document archive. Integrated with accountancy and inventory systems to automate the transfer of 100% accurate data. Increase speed, accuracy and collaboration across your teams.

FEATURES

- Data extraction: Automatic 100% accurate line-item data extraction in real-time. Extract product codes, product descriptions, quantity and unit price.
- Intelligent rules automation: Automatically assign line items with GL codes, tax rates, categories, classes, departments and more. Split line-items between multiple GL and tax codes.
- Robust approvals workflow: Customisable and intuitive approval workflow. Route bills to the relevant approvers automatically and immediately.
- Inventory sync: Export stock data to inventory systems to share 100% accurate stock data, removing double data entry.
- Price checking: automatically price check every product purchased against agreed supplier pricing.
- Supplier statement reconciliation: reconcile all your bills against your supplier statements in a couple of clicks in Lightyear.
- Group structures: create group structures for all your business entities and locations. Link them all together with parent/child relationships.
- Transparent pricing: all features of Lightyear included in all credit plans. Unlimited number of users and unlimited number of companies.
