SUBSCRIPTION: TRADEGEOCKO Inventory Management Application

What is it?

TradeGecko is a powerful cloud based inventory and order management software for modern online businesses. TradeGecko combines all your sales channels, locations and currencies so that every product, order and customer can be managed in one place. TradeGecko is ideal for Wholesalers.

Features

- TradeGecko gives you detailed up-to-date visibility and control over your inventory. Create purchase orders, backorders, stock takes and adjustments, plus easily track pack sizes, batches and expiry dates across multiple warehouses.
- Keep one central source of truth on stock levels as you sell across all your online and offline channels. Manage invoices, shipments and payments in multiple locations and currencies.
- Create and save custom inventory and sales reports to track business performance and plan for growth. Our detailed customer insights help you build on your strongest relationships with customers, suppliers, and distributors.
- Build your own TradeGecko B2B eCommerce store and then customise the store for each of your customers. One-click reorders, and a searchable catalogue makes wholesale much easier than selling over phone or email.
